Your Next Data Analyst

Results-driven Data Analyst with hands-on experience in building data pipelines, performing in-depth analysis, and creating actionable dashboards. Proficient in Python, SQL, Advanced Excel, and Power BI, transforming large datasets into valuable business insights. Eager to leverage analytical skills to solve complex problems.

EXPERIENCE

Data Analysis Intern

Jan 2026 – Present

Zeno Talent | Delhi, India

AI Mental Health Assistance

- Performed **data cleaning and preprocessing** on raw text datasets, including removal of duplicates, null values, and irrelevant entries.
- Handled missing and inconsistent data using appropriate imputation and validation strategies.
- Standardized text data using **tokenization, stopword removal, and normalization** techniques.

SKILLS

- Visualization:** Power BI, Matplotlib, Seaborn
- Scripting:** Python, Advanced Excel, SQL
- Others:** Microsoft Office Suite, ML Basics
- Soft Skills:** Time Management, Strong collaboration, Analytical Skills, Quick adaptation, Presentation Skills, Data Analysis, Attention to Detail, Multitasking, Team Player, Customer sensitive, Commitment, Service Orientation, Adaptable, Customer Centric, Problem Solving, Communication Skills, Learning Mindset
- Languages:** English, Hindi

PROJECTS

Enterprise Data Warehouse Using Bronze–Silver–Gold Layering, [Link](#)

Feb 2026 – Mar 2026

- Built an end-to-end SQL data warehouse using Bronze–Silver–Gold architecture, transforming raw data into **100% structured, analysis-ready datasets**.
- Developed optimized SQL models and star schema (fact & dimension tables), improving query performance and enabling **faster insights by ~40–50%**.

Vendor Sales Analysis, [Link](#)

Aug 2025 – Oct 2025

- Built a scalable data pipeline using Pandas to process **1M+** sales records, improving data consistency and reliability.
- Developed optimized SQL queries and a **Power BI** dashboard to extract **KPIs** and present insights on vendor and sales performance.
- Delivered actionable insights identifying top vendors driving **60%** of sales and highlighting underperformers for strategic decisions.

Target Store Data Analysis, [Link](#)

May 2025 – Jun 2025

- Conducted a comprehensive end-to-end exploratory data analysis on a dataset of **90,000+** orders, utilizing Python and MySQL to identify key customer trends and product sales patterns.
- Transformed complex data insights into engaging, clear data visualizations utilizing Matplotlib and Seaborn, enabling effective data storytelling for non-technical stakeholders.

Hotel Booking Cancellation Analysis, [Link](#)

Jan 2025 – Feb 2025

- Developed an interactive data visualization dashboard in Advanced Excel, leveraging pivot tables, charts, and formulas to analyze over **100,000** hotel bookings.

EDUCATION

B.Tech, Information Technology | GGSIPU, Delhi, India | (GPA: 8.7)

2021 – 2025

12th | Bal Bharati Public School, Delhi, India | (GPA: 9.1)

2008 – 2020

CERTIFICATIONS

[Introduction to Data Analytics](#), IBM

[AWS Fundamentals](#), Amazon Web Services

[Power BI](#), Microsoft Learn

VOLUNTEERING

Member, G–Sharp

2021 – 2025

Organized and **performed** in college singing events, collaborating with student teams to manage scheduling, coordination, and stage readiness.
